

Printing Shop Management System

Comprehensive Proposal
For Your Printing Business
(T-Shirts, Hoodies, Books, Flyers, Documents, Canvas & Photo Prints, Banners & More)

Executive Summary

This modern Printing Shop Management System is designed specifically for your business. It streamlines walk-in orders, enables online ordering, manages production efficiently, secures deposits, and provides you with full business visibility — all while delivering an excellent customer experience.

1. The Smart In-Store Customer Journey

Self-Service Kiosk (At the Entrance)

- Large, clear buttons for main categories:
 - **Apparel Printing** (T-Shirts, Hoodies, Polos, Tote Bags)
 - **Document Printing** (Books, Booklets, Flyers, Posters, Business Cards, Brochures, Certificates)
 - **Canvas & Photo Printing** (Canvas prints, framed photos, photo enlargements, wall art)
 - **Signage & Banners**
 - **Collect Existing Order**
- Customers select product type, quantity, size, color, material, paper type, binding, framing, and print locations using visual guides.
- Instant transparent price breakdown.
- The system creates a **Pre-Order** and generates a unique **Order Number**.
- Customer receives the Order Number on-screen and via SMS (this also serves as their queue number).
- Instruction: "Thank you! Please proceed to the counter with your Order Number."

Assisted Order Finalization (At the Counter)

- Consultant searches by Order Number and opens the pre-order.
- Reviews and finalizes all details with the customer.
- Turns the screen toward the customer to show the full order summary.
- Customer gives verbal approval (no digital signature needed).
- Order becomes official.
- Deposit (if required) is clearly shown.

Artwork & Design Upload

- If the customer doesn't have files ready, the order is still created.
- They receive a secure SMS link with their Order Number.
- They can upload images, logos, PDFs, or photos later from home.
- Staff are automatically notified when files are uploaded.

2. Online Customer Portal (Orders from Home)

- Mobile-friendly website with the same service categories.
- Easy step-by-step order builder for apparel, documents, canvas prints, etc.
- Built-in design tools: Upload images/PDFs, add text, position elements.
- **Live Mock-up Preview** — customers see their design on the actual T-shirt, canvas, or document layout in real-time.
- Instant pricing with detailed breakdown.
- Secure online deposit or full payment.
- Receives Order Number and tracking link.

3. Flexible Deposit & Payment System

- **Dynamic Deposit Rules** set by you (e.g., 50% on apparel & canvas, 100% on document jobs or large orders).
- **In-Store POS:** Process cash, card, EFT, and mobile money. Print or email receipts.
- **Online Payments:** Integrated with PayFast, Yoco, or similar gateways.
- Automatic balance reminders when order is ready.

4. Production Workflow & Staff Dashboard

- Unified dashboard with visual columns:
 - Awaiting Artwork → Design Review → In Production → Quality Check → Ready for Collection → Completed
 - Smart grouping of similar jobs (e.g., all heat-press T-shirts or all canvas prints).
 - Staff update status with simple clicks.
 - Clear view of uploaded files, specifications, and customer notes.
-

5. Automated Notifications & Tracking

- Customers receive their **Order Number** immediately.
 - Secure link for uploading files and tracking progress.
 - Automatic SMS / WhatsApp / Email notifications:
 - Order confirmed
 - Artwork received
 - Job completed (with remaining balance if any)
-

6. Admin Control Center & Business Management

- Live overview of orders, revenue, and production status.
 - Complete customer and order history (excellent for re-orders).
 - Powerful reports: Best-sellers, sales trends, outstanding payments, staff performance.
 - Product & pricing management (add new items, canvas sizes, paper types, etc.).
 - Inventory tracking with low-stock alerts (T-shirts, canvas, paper, ink).
 - Staff accounts with role-based permissions.
-

7. Additional Features

- Delivery option with address and fee calculation.
 - Easy re-order from previous designs and photos.
 - Secure data storage and automatic backups.
-

Key Benefits

- Smooth, organized in-store flow using Order Numbers (no physical queue board needed).
 - Customers can upload designs conveniently after receiving their Order Number.
 - Stronger cash flow through automated deposits.
 - Fewer printing mistakes thanks to mock-ups and direct uploads.
 - Support for all your services: Apparel, Document Printing, Canvas & Photo Printing, Banners.
 - Professional modern image for your shop.
 - Full visibility and control for the owner.
-

This system will help you serve more customers faster, reduce risk, increase online sales, and run a more professional and profitable printing business.
